ICKI Sports - Overview files

After downloaded all the files available on our exclusive MemberShip commercial section and also some files that are available on our free tools section, let´s see a brief overview inside the ICKI Sports package release. Since some tools used on this template have their own HelpFile, we will give you here the major orientation guide to make your installation and provide screenshots of the demo configuration available on the HelpFile package from each gavick extension used. For further details about our tools, please read the respective HelpFiles available on this package or on our free tools download section.

[So, here's a brief overview of the files available inside the "ICKI Sports" Template pack release.](#)

You downloaded the following 2 compressed files:

» **gk_icki_sports_J!15.tgz** - This is the template file installation.

» **gk_icki_sports_J!15_rest_files.zip** "Important!!! Before running... please unpack the .zip pack file."

After unpack, the "gk_icki_sports_J!15_rest_files" folder contains the following files:

» **_doc!!!** "folder"

Here's the present Instructions Manual. For the PhotoSlide GK3 Component, the Tabs Manager GK3 component, the News Show Pro GK1 module and also the Gavick News HighLighter GK1 module HelpFiles, you can find them inside the respective tools package.

» **_quickstart!!!** "folder"

The ICKI Sports comes along with a QuickStart package version installation. Please, read the respective chapter.

» **Components** "folder"

Contains instructions to download the tools that are necessary to use on the ICKI Sports template. Since this tools are free and have his own HelpFile, please download the respective package from our free download section.

» **Modules** "folder"

Contains instructions to download the modules that are necessary to use on the ICKI Sports template. Since this tools are free and have their own HelpFile, please download the respective package from our free download section.

» **Source** "folder"

The psd. format files for Photoshop Graphic Editor are the source that you can use for important customization of your website design.

Notice!! The font(s) used on the source files are not provided with the Template package, because they may have copyrights reserved.

IMPORTANT!!!

Other files necessary and not available on package.

Like explain before, to complete the necessary files, you must download from our free tools section the following files
Go to <http://tools.gavick.com> or to <http://www.gavick.com/downloads-area/>

There you will find the components and modules used for this template (since they are free, they are located on our free download section).

» PhotoSlide GK3 component package (Unpack first the photoslide_3_pack.zip file!!!).

GK PhotoSlide GK3 component (*com_gk3_photoslide.zip*) - this is the new version of PhotoSlide and it's located inside of the component folder. (Installation: use Joomla Installer).

GK Image Show module (*mod_gk_image_show.zip*) - this is the new module, exclusive for PhotoSlide GK3 version. Also, inside of the module folder you will find *style_1_settings.txt* and *style_2_settings.txt* files. Each contains unique style settings for groups content display. (Installation: use Joomla Installer).

» Tabs manager GK3 component package (Unpack first the tabsmanager_3_pack.zip file!!!).

GK Tabs Manager GK3 component (*com_gk3_tabs_manager.zip*) - this is the Tabs Manager GK3 component and it's located inside of the component folder. (Installation: use Joomla Installer).

GK Tab module (*mod_gk_tab.zip*) - this is the module, exclusive for Tabs manager GK3 version. (Installation: use Joomla Installer).

» News Show Pro GK1 module package (Unpack first the news_show_pro_gk1_pack.zip file!)

Here you can find this following files needed.

GK News Show Pro GK1 module (*mod_news_pro_gk1.zip*) - this is the module (Installation: use the Joomla Installer).

GK News Show GK3 plugin for PhotoSlide GK2 (*plg_news_show_gk3.zip*) - Notice that this plugin is only necessary for PhotoSlide GK2 version, in case you decide to use instead of the news PhotoSlide GK3. The new version of this component already have the New Show Pro GK1 plugin installed. So, you may considerate this plugin as optional and remember that doesn't work with PhotoSlide GK3, but only PhotoSlide GK2 (Installation: use the Component Installer).

» News HighLighter Gk1 module package (Unpack first the highlighter_gk1_pack.zip file!)

Here you can find this following files needed.

GK News HighLighter GK1 module (*mod_gk_news_highlighter.zip*) - this is the module (Installation: use the Joomla Installer).

After you get this files, please unpack first and use them when needed, as we explain in next chapters.

Here are some recommendations that you should considerate and might help you.

Are you new in Joomla?

If you are new in Joomla, we strongly recommend that you perform some tests and experiences to fit into this excellent CMS (Content Management System) and visit the official support forum of www.joomla.org for any problem direct related. Nevertheless, we will be happy to help you if possible in our support forum.

Building a new Joomla Website ?

If you are building a new website and if you like our demo, we strongly recommend you to use the QuickStart version and from them, change it to your own content and configuration.

Get quick acquaint with ICKI Sports template

In all cases, if you are a new or already experience user, we recommend that you install a experimental version, using free popular local server like XAMPP or WAMP (you can find easily information on internet about this excellent tools for website development) or if you wish, an online test installation. This way, you be able to fit in more fast and easier way in some configuration tools, modules positions and other particular details that you need to know.

You already have a website and want to use this template ?

If you choose to install this template in an already existing website, make sure that you have the latest version of Joomla (present version - J!1.5.10). If not, please upgrade to insure total compatibility with our template and tools. Naturally, if this is your case, you must install all files individual, from template to components, modules and plugins. Nevertheless, please remember that the QuickStart version still is an important ally to help you. Just remember the previous recommendations.

Do you have some problems with our tools ?

Some usual problems reported on our support forum are originated from script conflict with 3th party tools. If you know Joomla sufficient enough, you already know that there is a huge amount of solutions and extensions available for free or some commercial from other team or developers. Naturally, you will search others extension to complete some particular functionality and your website needs, but understand that we are responsible only for our template and tools; and we cannot guarantee that all 3th party extensions will work perfectly with our template or tools. So, it is your hands and it is your responsibility to choose those extensions on Joomla Community. Anyway, you always can ask for support in our forum and if is possible, we will try to help you.

Another usual problem reported in our forum, is related with permissions on files and directory. Some tools need that some specific files are set with rewrite or read permissions, so you can find some problems if you don't have this permissions set. Take note that we cannot control your server security configuration, but we can point you directions were you must change this permissions. If you are unable to change it, we recommend that you contact your host server provider.

Keep always updated!

We strongly recommend that you visit us regularly on update.gavick.com, were you can see the latest updates of our templates, components, plugins and modules. If you have any problem, be sure the solution is not already available and you will avoid waste time searching or asking for solutions in our forum support.

Need some small CSS style customizations adjustments?

You can always request some support from our Moderators or Developers, but you need to take in mind that this is customization and not regular support service. We are considering in the future to create personal customization and installation services support for those who need it. The Developer MemberShip is excluded, since this service is already available for this subscription. Nevertheless, we will always available to try to help you.

If you have some experience in CSS styling, we strongly recommend the use one of the most powerful tool for WebDesigners, available for free in FireFox browser - The FireBug addon - a perfect ally and work tool.

What is the better way for me to place a problem in the support forum?

If you need help in some issue, please post it in our forum support in the most objective way, preference in english language and with an URL to show us the problem. This way, we will be able to give you the needed help in faster way.

Need to contact Us?

Besides our official forum support, you can also contact us by Skype. Please check our contact page and we will reply to you as soon as possible.

ICKI Sports QuickStart installation

Why do we recommend this installation option? Well, because it's the easiest way to install our template and to take advanced immediatly of all components, plugins and modules configurations. It's like a normal Joomla!1.5 installation and it includes all files needed. It will set your joomla website exactly as we show the **ICKI Sports** Template in our demo.gavick.com.

Again, we invite you to visit us regularly, because all Joomla!1.5 future upgrades may force us to upgrade all our template and the respetive tools. So, keep in touch on update.gavick.com.

Strong Sugestion!!!

You can easily get acquaint of the ICKI Sports template environment, by making some local tests, using a local server like (i.e. [XAMPP](#) or [WAMP Servers](#)) or others available for free in the internet. **By installing this local servers, you be able to install, run and test easily all the potencial of this template, exactly as you see on our demo, without any problems.** This make all the difference and we garantee you that will avoid wasting time by searching our support forum, when the answer is already available on the QuickStart version.

Well, let's do it! If you follow this unique basic steps, your should not have any problems at all with the QuickStart installation.

Installation Steps for the QuickStart!!! version :

Step 1) Unpack the compressed file `gk_icki_sports_J!15_rest_files.zip` and you will find inside the `_quickstart!!!` folder. Enter inside and you will find the `QUICKSTART_MAY2009.zip` file.

Step 2) Unpack the compressed file `QUICKSTART_MAY2009.zip` inside of the `_quickstart!!!` folder and upload all the content inside of the `QUICKSTART_APR2009` folder to your clean website directory. You will notice that this files are similar to a normal Joomla!1.5 package. That's because it's like a normal joomla installation.

Step 3) Create a new database using MyphpAdmin that you should have it installed in your cpanel website.

Step 4) Make a normal Joomla J!1.5.11 installation steps using the upload files. **Notice!!! You will see that it's no necessary at this time to set your Username and Password, because they are already set.**

Step 5) Like a normal joomla installation, you must delete or rename your "installation" folder in your new website installation.

Step 6) After ending the installation, enter in the Administrator using Username "admin" and password "demo" *(Naturally, you can change this values after!!!).*

That's it! Easy, was not? Of course it was.

If you go to your new Joomla Installation frontpage, you will see exactly as our demo. Now, you can start working on your own content and make guidance use of our tools configuration.

ICKI Sports Quick Guide - Step by Step Installation

For those who need to install the template manually and do not need further details information, we prepare the following short cut step by step task list for the ICKI Sport installation. Naturally, we will assume that you already have the latest Joomla!1.5 website installed.

- » **Step 1** - Install the **ICKI Sports template** (*gk_icki_sports_J!15.tgz*) using the Joomla Installer.
- » **Step 2** - Go to the Templates Manager and set the “**gk_icki_sports**” template to default.
- » **Step 3** - Using the Joomla Installer, install the **PhotoSlide Gk3** component (*com_gk3_photoslide.zip*).
- » **Step 4** - Using the Joomla Installer, install the **GK Image Show** module (*mod_gk_image_show.zip*).
- » **Step 5** - Using the Joomla Installer, install the **Tabs Manager Gk3** component (*com_gk3_tabs_manager.zip*).
- » **Step 6** - Using the Joomla Installer, install the **GK Tabs** module (*mod_gk_tab.zip*).
- » **Step 7** - Using the Joomla Installer, install the **GK News Show Pro GK1** module (*mod_news_pro_gk1.zip*).
- » **Step 8** - Using the Joomla Installer, install the **GK News HighLighter GK1** module (*mod_gk_news_highlighter.zip*).
- » **Step 9** - With all previous 8 steps done, your template have all the necessary files installed. More ahead, you will provide orientation of the demo modules positions on the template and their configurations. For the demo modules positions, please see the screenshot on the next page!

6

Demo Modules Positions

Demo Modules Positions

The following screenshot contains a resume list of the modules used on the demo template and the respective positions. For each modules configuration, we recommend that you make an experimental installation locally or online, using our quickstart version. For your orientation, please check inside the DemoModulesConfigurations folder and you will find some screenshot of the Gavick Tools modules configurations used on this template. This might help those who don't use the QuickStart version installation.

Use height animation in menu.

Menu opacity animation:

Use opacity animation in menu.

Module as Component

ICKI Sports template comes with new feature that allow you to display any Module as Component. You just need to enable the module to “**mainbody**” module position and assign it for example to a wrapper menu link without any content. It will display full width or not, depending on the module width configuration. So, if you are one of those who ask us if there a possibility to display a module as component, here's you answer.

This small trick will be added to all templates in the future and we will explain better this new feature on the official Gavick Blog.

PhotoSlide GK3 Component Installation

The PhotoSlide GK3 is the most advanced and free Image Slide component available for Joomla!1.5. You need to download this package from our free tools download section on <http://www.gavick.com/downloads-area.html> and then unpack the file.

Using the Joomla Installer, search for the `com_gk3_photoslide.zip` and select “upload and install”. A message will appear saying “Upload Component - Success” and it will show you an overview of the component.

For further detail information, please read the PhotoSlide GK3 HelpFile provided in the `_doc!` folder package.

GK Image Show Module Installation

For front end display of the PhotoSlide GK3 groups, you need to use the respective module.

Notice! You cannot link directly the component using Joomla menu for frontpage display.

Using the Joomla Installer, search for the `mod_gk_image_show.zip` and select “upload and install”

A message will appear saying ‘Install Module Success’.

If all goes well, you should see the GK Image Show module available on “[Extensions > Module Manager](#)” list.

Search the module and enter inside for configuration.

The right screenshot displays the demo configuration used on ICKI Sports template.

If you need to use more than one module to display a different group, you need to copy the module and remember to attribute a different unique ID.

For further detail information, please read the respective HelpFile of PhotoSlide GK3.

Parameters

▼ **Module Parameters**

Module Class Suffix	<input type="text" value="_clear"/>
Module unique ID	<input type="text" value="newsimage1"/>
Slides group	Header ▼
Module style	Template style ▼
Style variation	<input type="text" value="style1"/>

preloading=true;
animation_speed=500;
animation_interval=5000;
autoanimation=true;
animation_type=opacity;
```

► **Advanced Parameters**

Tabs Manager GK3 Component Installation

The Tabs Manager GK3 is an amazing tool to display content on tabs, like articles, modules or even custom XHTML content. You need to download the package of this component from our free tools download section on <http://www.gavick.com/downloads-area.html> and then unpack the file.

Using the Joomla Installer, search for the `com_gk3_tabs_manager.zip` and select “upload and install”. A message will appear saying ‘Upload Component - Success’ and it will show you an overview of the component.

For further detail information, please read the Tabs Manager GK3 HelpFile provided in the `_doc!` folder package.

GK Tabs GK1 Module Installation

For front end display of the Tabs Manager GK3 groups, you need to use the respective module. **Notice!** You cannot link directly the component using joomla menu for frontpage display.

Using the Joomla Installer, search for the `mod_gk_tab.zip` and select “upload and install”. A message will appear saying ‘Install Module Success’. You can now see this module available on “Extensions > Module Manager” list.

For further detail information, please read the respective HelpFile of PhotoSlide GK3.

Module Configuration

If you need to check our module configuration used on the demo template, please open the Demo Modules Configurations folder available on the package and inside of `GK_Tabs_GK1_module` folder you will find an screenshot for your consultation.

News Show Pro GK1 Module Installation

It's one of the most popular extension on Joomla Community. For some, perhaps the best ever made. We like to think that the best is yet to come. With it's powerful capabilities, the News Show Pro GK1 offers you an amazing ways to display your articles and news content in the most stylish and professional way.

Once again, download the package of this free module from our free tools download section on <http://www.gavick.com/downloads-area.html> and them unpack the file.

Using the Joomla Installer, search for the `mod_news_pro_gk1.zip` and select "upload and install". A message will appear saying 'Upload module - Success' and it will show you an overview of the module.

For further detail information, please read the News Show Pro GK1 HelpFile provided in the `_doc!` folder package.

News Show Pro GK1 Module Configuration

If you need to check our modules configurations used on the demo template, please open the Demo Modules Configurations folder available on the package and inside of `GK_News_Show_Pro_module` folder you will find screenshots of all the modules used and identified with the respetive module ID for your consultation.

News HighLighter GK1 Module Installation

Another great Gavick extension. Espectacular articles and news scroller with the highest style quality design, fully CSS customizable, along with amazing animation effects.

Once again, download the package of this free module from our free tools download section on <http://www.gavick.com/downloads-area.html> and them unpack the file.

Using the Joomla Installer, search for the `mod_gk_news_highlighter.zip` and select “upload and install”. A message will appear saying ‘Upload module - Success’ and it will show you an overview of the module.

For further detail information, please read the News HighLighter GK1 HelpFile provided in the `_doc!` folder package.

News HighLighter GK1 Module Configuration

If you need to check our modules configurations used on the demo template, please open the Demo Modules Configurations folder available on the package and inside of `GK_News_Show_Pro_module` folder you will find screenshots of all the modules used and identified with the respective module ID for your consultation.

15 Modules Positions

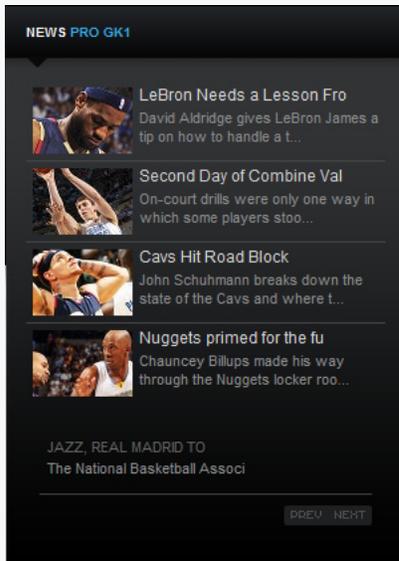

ICKI Sports template supports full width configurations for use with galleries or forums, make sure you do not publish any modules in right and the 'component' will fill the entire width.

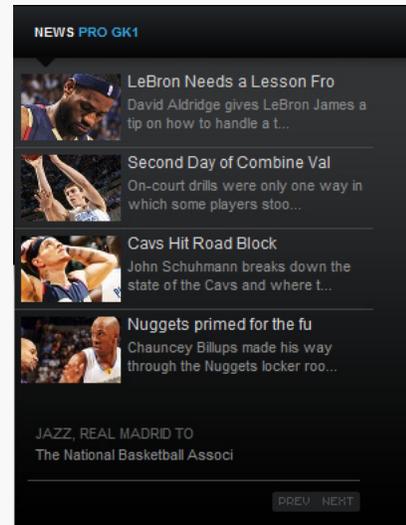

16 Modules Variations

ICKI Sports template comes with embed style modules positions and with the following modules suffix.

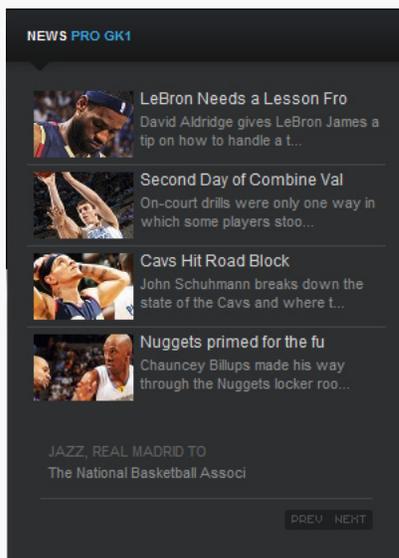

For example, on the right column if you don't set any module suffix, the module will look like this:

If you need to remove module.table margins, you need to add “`_clear`” suffix to the module. Here's an example, on the same module:

In the same module position, if you add “`_light`” suffix, the module will display a lighter style (only on right module position)

Also, ICKI Sports provides “`_menu`” and “`_text`” modules suffix.
