## TABLE OF CONTENTS

1- Introduction _____	3
2- Installing the template <b>with</b> the Cloner Installer package _____	4
3- Installing the template <b>without</b> the Cloner Installer package _____	5
4- Template and Extensions Parameters _____	6
5- More Information _____	13

## 1- Introductions

These instructions are for installing the template and its associated extensions, with or without the Cloner Installer package.

The Cloner Installer package is very helpful and enables you to setup the template exactly as it is on the demo. If you already have a running Joomla! website, you should not use the Cloner Installer package.

The setup instructions for installing with and without the Cloner Installer package are shown below.

The IT Prestige All in One package (IT\_Prestige-(unzip-first)-xxxxxxxxxx.zip) contains the following files. Note that the files of this package should be extracted first on your computer.

1. IT\_Prestige\_Template\_V1.0.0.zip
2. mod\_IceSlideShow.zip
3. mod\_IceScroller.zip
4. mod\_IceAccordion.zip
5. mod\_IceCarousel.zip
6. mod\_IceTwitter.zip
7. mod\_IceMenu.zip
8. mod\_PixSearch.zip
9. mod\_Jweather.zip
10. Cloner\_Installer\_Joomla-1.5.X.zip
11. Installation Guide

From the list above you will note that for this Joomla template there are available the template, 8 extensions, Cloner Installer package which can make your website exactly as our demo and the Installation Guide which in fact is this document that you are viewing.

All the files above from number one to nine should be installed through the default Joomla! Installation process in Joomla! Administrator.

## 2- Installing the template with the Cloner Installer package

If you plan to use the “Cloner Installer” package all you have to do is to upload the content of this zipped package on your desired directory and begin the default installation process as described by Joomla!

Note that **you must install the “sample data” on the 6th step of the installation process** so that your database should be updated with our template data. Also if you make use of the Cloner Installer package, all files from 1-9, that are found inside the All in One package, should not be used as they are by default on the Cloner Installer package, so you don't have to install anything from the Joomla! Installation page in Joomla! Administrator, after you have completed the installation process.

The Cloner Installer package will save you a lot of times as you don't have to set parameters for the extensions and for our template plus you have the content set up by default. So making use of this package is extremely recommend for websites that begin from scratch.

Normally you should login with the information that you have provided on the 6<sup>th</sup> step of the installation process, however if you are unable to do so please use:

Username: admin

Password: icetheme

You may change the admin password from the Joomla! Administrator – User Manager - Admin

For more information how to install Joomla please follow the [Joomla QuickStart](#) page

### 3- Installing the template **without the Cloner Installer** package

#### Note:

The instructions below assume that you have first successfully installed Joomla on your server. For more information on how to install Joomla please follow the [Joomla QuickStart](#) page

- 1) Extract the content of the IT Prestige All in One package on your computer.
- 2) Install IT\_Prestige\_Template\_V1.0.0.zip from Joomla Administrator – Install/Uninstall
- 3) Install in the same way the following extensions which are on the package.
  - a. mod\_IceSlideShow.zip
  - b. mod\_IceScroller.zip
  - c. mod\_IceMenu.zip
  - d. mod\_IceAccordion.zip
  - e. mod\_IceCarousel.zip
  - f. mod\_IceTwitter.zip
  - g. mod\_PixSearch.zip
  - h. mod\_JWeather.zip

After you have successfully installed all the above files on your Joomla! Website you need to edit for each extension and for the template their parameters. You may view the default parameters from the guide below, but you may change them with your desired ones.

### 1- IT Prestige template parameters

**Parameters**

The parameter file `templates\it_prestige\params.ini` is **writable!**

Template Style	Style 1 ▼
<hr/>	
Logo Box Width (px)	275
Left Column Width (px)	202
Right Column Width (px)	202
<hr/>	
Font Size	Medium ▼
Font Switcher	<input type="radio"/> No <input checked="" type="radio"/> Yes
RSS Feeds	<input type="radio"/> No <input checked="" type="radio"/> Yes
<hr/>	
Login Box Transition	Expo.easeOut ▼
Login Box Duration (ms)	900
<hr/>	
Display Go Top	<input type="radio"/> No <input checked="" type="radio"/> Yes
Go Top Transition Effect	linear ▼
Go Top Animation Duration (ms)	1500
<hr/>	
IceTheme Logo	<input type="radio"/> No <input checked="" type="radio"/> Yes
<hr/>	
Gzip Compression	<input type="radio"/> No <input checked="" type="radio"/> Yes

## 2- IceMenu Module

**Parameters**

▼ <b>Module Parameters</b>	
Menu Name	mainmenu ▼
Delay	500
Duration	800
Transition	Expo.easeOut ▼
▶ <b>Advanced Parameters</b>	

## 3- IceAccordion Module

**Parameters**

▼ <b>Module Parameters</b>	
Link Color	777
Link Color (Active Item)	333
Category Items	IceTheme/IceAccordion ▼
Article Ordering	Article Order ▼
Number of Items	4
Module Class Suffix	
▶ <b>Advanced Parameters</b>	

## 4- IceSlideShow Module

### Parameters

▼ Module Parameters	
Category Items	IceTheme/IceSlideShow ▼
Article Ordering	Article Order ▼
Number of Items	6
IceSlideShow Width	970
IceSlideShow Height	240
AutoPlay	<input checked="" type="radio"/> Yes <input type="radio"/> No
AutoPlay Delay (ms)	6000
Preloader	<input checked="" type="radio"/> Yes <input type="radio"/> No
Preloader Image.	<input checked="" type="radio"/> Yes <input type="radio"/> No
Preloader Error	<input checked="" type="radio"/> Yes <input type="radio"/> No
Transition Effect	Fade ▼
Transition Duration (ms)	700
InfoPane	<input checked="" type="radio"/> Yes <input type="radio"/> No
InfoPane Opacity (0-1)	0.7
InfoPane Slide	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Thumbnail Width (px)	160
Carousel Thumbnail Height (px)	40
Carousel Thumbnail Space (px)	10
Carousel Closed Height (px)	20
Carousel Closed Opacity (0-1)	0.4
Carousel Opened Opacity (0-1)	0.8
Carousel Text	Show Pictures
Carousel thumbnail description	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Close Option	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Scroll	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carousel Preloader	<input checked="" type="radio"/> Yes <input type="radio"/> No
Carosuel Preloader Text	Loading...
Module Class Suffix

## 5- IceCarousel Module

### Parameters

▼ Module Parameters	
Category Items	IceTheme/IceCarousel ▼
Article Ordering	Article Order ▼
Number of Items	12
<hr/>	
Full Width (px)	960
Item Width (px)	182
Item Height (px)	218
IceCarousel Amount	1
<hr/>	
IceCarousel Style	Fade and Scroll ▼
IceCarousel Direction	Left ▼
Transition Effect	Sine.easeOut ▼
IceCarousel Duration (ms)	800
<hr/>	
IceCarousel AutoPlay	<input type="radio"/> No <input checked="" type="radio"/> Yes
IceCarousel AutoPlay Interval (ms)	5000
IceCarousel onMouseOver	Stop ▼
<hr/>	
IceCarousel Text	<input checked="" type="radio"/> Yes <input type="radio"/> No
IceCarousel Text	The New IceCarousel Module
<hr/>	
Module Class Suffix	
▶ Advanced Parameters	

## 6- IceTwitter Module

**Parameters**

▼ Module Parameters	
Twitter Username	<input type="text" value="icetheme"/>
Twitter Feeds	<input type="text" value="3"/>
Category Items	<input type="text" value="Sample News/Sample News"/> ▼
Article Ordering	<input type="text" value="Recently Added First"/> ▼
Number of Items	<input type="text" value="4"/>
Module Class Suffix	<input type="text" value="col-module-style1"/>
▶ Advanced Parameters	

## 7- IceScroller Module

**Parameters**

▼ Module Parameters	
Show Pre-Text	<input type="text" value="Yes"/> ▼
Pre-Text	<input type="text" value="Latest"/>
Scroller Width (px)	<input type="text" value="540"/>
Scroller Height (px)	<input type="text" value="25"/>
Animation Duration (ms)	<input type="text" value="1000"/>
Animation Delay (ms)	<input type="text" value="4000"/>
Animation Interval	<input type="text" value="4000"/>
Transition Effect	<input type="text" value="Sine.easeOut"/> ▼
AutoPlay	<input type="text" value="No"/> ▼
Scroller Direction	<input type="text" value="Horizontal"/> ▼
Show Buttons	<input type="text" value="Yes"/> ▼
Category Items	<input type="text" value="IceTheme/IceScroller"/> ▼
Article Ordering	<input type="text" value="Article Order"/> ▼
Number of Items	<input type="text" value="4"/>
Module Class Suffix	<input type="text" value=""/>
▶ Advanced Parameters	

## 8- PixSearch Module

### Parameters

▼ Module Parameters	
Module Class Suffix	<input type="text"/>
Pre-text	<input type="text"/>
Post-text	<input type="text"/>
Searchpage URL (relative to domain)	<input type="text" value="index.php?option=cc"/>
<hr/>	
To include PixSearch default CSS or not	<input type="radio"/> No <input checked="" type="radio"/> Yes
Offset in px, fix to get the results underneath the box	<input type="text" value="-140"/>
<hr/>	
Searchphrase	<input type="text" value="Any words"/>
Order	<input type="text" value="Newest first"/>
Limit	<input type="text" value="10"/>
<hr/>	
Hide div id(s)	<input type="text"/>
Link to all results	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show Description	<input checked="" type="radio"/> Yes <input type="radio"/> No
Include (Category/Section)	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show Read More link	<input checked="" type="radio"/> Yes <input type="radio"/> No

## 9- Jweather Module

**Parameters**

▼ **Module Parameters**

Partner ID	<input type="text" value="1059138683"/>
License Key	<input type="text" value="905300a2645daf22"/>
Measurement System	<input checked="" type="radio"/> Metric <input type="radio"/> US Standard
Icons Path	<input type="text" value="icons"/>
City Code	<input type="text" value="ITXX0042"/>
Number of forecast days	<input type="text" value="5"/>
Title	<input type="text" value="Weather for"/>
Show locality name	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show day names	Short Format <input type="button" value="v"/>
Show icons for weather	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show temperature	<input checked="" type="radio"/> Yes <input type="radio"/> No
Temperature separator	<input type="text"/>
Show forecast information	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show sunrise time	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show sunset time	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show sunrise/sunset time	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show Visibility	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show wind	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show humidity	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show Dewpoint	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show High temperature	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show Low temperature	<input type="radio"/> Yes <input checked="" type="radio"/> No
Show High/Low temperature	<input type="radio"/> Yes <input checked="" type="radio"/> No
Module ID suffix	<input type="text"/>
Module Class Suffix	<input type="text"/>
